

12.5 TONNE CPT TRACK MOUNTED RIG (CPT 030)

CPT030, 'Rose', is one of our smaller tracked CPT rigs. With a total weight of 12.5 Tonnes, it is able to push up to a depth of 30-40 metres, depending on the ground conditions. It has low ground bearing pressure due to the width of the tracks and is ideal for soft, boggy sites which are inaccessible for wheeled CPT rigs. Furthermore, this rig is remote controlled which enables it to be positioned accurately and safely on each test location.

CPT RIG DETAILS

DRIVE SYSTEM	TRACKED BY REMOTE CONTROL
TOTAL WEIGHT	12.5 TONNES
GROUND BEARING PRESSURE	30kPa
CPT RAM THRUST CAPACITY	12.5 TONNES
MAXIMUM PENETRATION	30-40M DEPENDING ON THE GROUND CONDITIONS.
PERFORMANCE RATES	120-150M OF TESTING IN A DAY DEPENDING ON ACCESS TO POSITIONS.
TYPICAL SITES FOR THIS RIG	OFF ROAD SITES E.G. BEACHES, UNEVEN MUDDY GROUND. HARDSTANDING SITES
